

Due to many factors related to the COVID-19 pandemic, Phoenix Youth Center will begin the school year with virtual services and programs.

- 1. Homework Help will be available by appointment virtually, so students with questions related to either in-person or cyber assigned school work can receive aid.*
- 2. We will have videos of techniques, mostly math related, to help reinforce areas of difficulty for students. These will be posted to our Facebook page.*
- 3. We will have posts of activities, games and STEM projects students can complete using items found in many homes to engage students during out of school hours.*
- 4. We will have videos of activities students can do along with us, including yoga and martial arts, to build on skills learned last school year at Phoenix.*

As the situation continues to unfold and evolve, we will continue to assess. Our rented facility will also continue to assess the situation. If we reach a point where it is safe to open and students are at more of a full-capacity in school, we hope to open Phoenix for in-person service. In the meantime, be safe and well and join us on Facebook (<https://www.facebook.com/phoenixyouthcenter>) for virtual programs and services beginning in September. To schedule Homework Help, email cweibley@lclibs.org.
